

Technology meeting May 2011

Beginning as we do all things:

In the name of the Father and of the Son and of the Holy Spirit. Amen

A reading from the book of Genesis:

First Chapter – verses 1 to 3

“In the beginning God created heaven and earth.

And the earth was void and empty, and darkness was upon the face of the deep.

And the spirit of God moved over the waters.

And God said: “Let there be light”. And light was made

Many, many, many millenia later, God sent his Holy Child to embrace and redeem his creation.

Two millenia later, we are gathered here, a group of Holy Child educators acting in harmony with Holy Child thought, embracing the world believing that we will find God in it and can bring God to it.

Specifically we embrace the new, very young [approx. 60 yrs.], rapidly developing, powerful and very transformative realm of technology.

A realm of human-made light, light flashing in fiber, glowing on displays/monitors, pulsing in on/off circuits powered by electricity...a realm of incomprehensible nanotechnology and incredible speed.

So let us pray:

Great God of the universe, creator of light, inspire, energize and guide us through this realm of artificial, human-made light as we strive to create what is best for the education of the wonderful children in our Holy Child schools. **Amen!**

— Jim Breslin, Rosemont School
