

## Let Us Prayer

O living God,  
you fashion our human race in your image  
to be a community of equality and love among women and men.  
With Cornelia Connelly and all the saints, we worship you  
for binding us together in the love of God to work tirelessly  
for the rights of every woman and man,  
to tend creation as equal partners in holiness.  
Your Spirit makes us one and calls us to the task of Christian service,  
so that the talents and gifts of every person give glory to your holy name.  
Amen
